## Vinyl Flooring Accessories – Capping Seal

Décor-matching Reliance Flooring Accessories are suitable for Vinyl and Linoleum floorings. A wide range of flooring accessories is available to give a perfect touch to the floor.

### Application

Reliance PVC Capping Seals or Strips are ideal to cover the exposed edge of the Vinyl or Linoleum. A capping strip is installed where the floor covering ends.

Capping Seals are used with Homogeneous & Heterogeneous Vinyl floorings.

PVC Capping is used to finish the top of a resilient floor covering where it has been covered up the wall.

Capping Seals are flexible to accommodate a range of floor covering thicknesses. A choice of different colors and designs are available.

### Installation

Capping Seals are secured to all wall surfaces using contact adhesive

- Suitable for interior use
- Capping Seals are ideal for use in areas subject to dry and wet cleaning areas.
- Coil-able Capping Seal minimizes joints. Ideal in areas where both the horizontal and vertical joints require welding e.g. food preparation areas & clinical treatment areas.

**Colors:** Black, Brown, Beige, Blue, Grey, Green, Orange, Red, White, Yellow.

**Customized designs and colors can be produced to match customers' specific requirements.**
